The more you know, the better the outcome.

Sandra Thompson spends her weekends on the lake.

As a former competitive rower, Sandra has a strategy for success. We have a winning strategy too, that will ensure Sandra's PCI treatment lasts a lifetime.

When you see, prep, and treat a vessel with our Modern PCI portfolio, you're choosing durable and predictable outcomes that improve patients' lives.

We're defining a new standard of care so Sandra can be confident that her PCI will stand the test of time.

Zero: The new measure of success.

1 in 10 patients are re-admitted for restenosis.¹

Go for Zero.

Our goal is clear: Zero readmissions for preventable restenosis.

Today, short-term outcomes are table stakes. Feel the satisfaction of placing a stent for outcomes that will last a lifetime. With Modern PCI you have the information to understand the patient and the tools to get the procedure right the first time.

So, yes. We're going for zero – by giving you everything we've got to help reimagine long-term outcomes and redefine the standard of care.

Not just once, but for all.

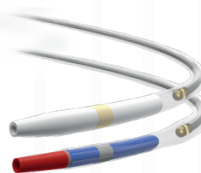

Make it clear.

No more flying blind outside the arterial walls. Unlike angiography, Modern PCI gives you inside knowledge. Assess plaque type and severity with state-of-the-art tools that reveal the patient's physiological state and eliminate guesswork.

The result: clearer treatment decisions and fewer future complications.

OPTICROSS HD
60 MHz Coronary Imaging Catheter

COMET II
Pressure Guidewire

Create the way.

The data is clear — successful outcomes start with proper vessel preparation. Access best-in-class tools to modify calcium, tackle a CTO, and achieve optimal luminal gain.

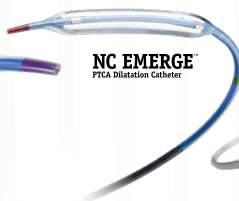

Move forward with certainty, knowing your treatment is primed for a smooth delivery and lasting success.

WOLVERINE
Cutting Balloon Dilatation Device

NC EMERGE
PTCA Dilatation Catheter

MAMBA
Microcatheter Family

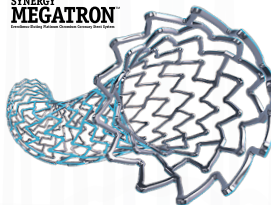

Outcomes for a lifetime.

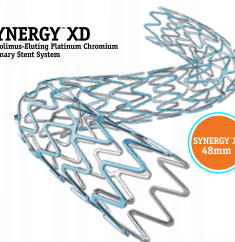

As treatment nears, you are nothing but confident. Having taken the steps proven to reduce risk and increase long-term success, you now have a suite of market-leading therapies at your fingertips.

This is the new standard — a holistic approach that produces the best possible outcomes in trial after trial. Ushered in by a generation of physicians emboldened by data and united by purpose.
